Where style and purity of sound comes together, here comes DJ/Producer Jos.

In the early 90s, he began his young career performing in events in southern Italy. The strong passion for the music and the manipulation of the sound made him also approach to the production. His career was marked by the knowledge and advice of some DJs and producers of international relevance, like Dj Remo, Deelay, Jacopo Galeazzi, Matteo Matteini, Salvo Citraro and many others.

At the beginning of his career the commercial and dance were predominant, but recently his style has been influenced by a touch of minimal – deep ; so that was how the fresh, clean, simple but involved style of DJ Jos was born. His style is TECH HOUSE.

In addition to playing well in the more fashionable clubs in Catania, DJ Jos has been able to establish himself throughout Italy and Europe.
